General Assembly**

The Red River Métis were left out of the Manitoba – First Nations Mineral Development Protocol.

- Your Métis government continues to pressure Manitoba to develop a Red River Métis specific mineral development protocol.

Manitoba Métis Federation
**2023 Annual
General Assembly**

Several new mineral development projects are being explored across the province.

The most recent mining files include:

- Minago Nickel Project – Flying Nickel Ltd.
- Vivian Silica Sand Project – Sio Silica
- Wanipigow Silica Sand Mine and Selkirk Processing Facility
- Lynn Lake Gold Mine – Alamos Gold Inc.
- Potash and Agri-Development Corporation of Manitoba Ltd.

- T2 Metals (exploration)
- Kenorland Minerals (exploration)
- Snow Lake Lithium (exploration)
